EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bill Evans on October 4, 2005.

The application has been amended as follows:

Cancel Claims 13 and 14.

REASONS FOR ALLOWANCE

2. Claims 1-12 are allowed over the prior art of record.

3. The following is an examiner's statement of reasons for allowance:

The invention as claimed, specifically in combination with a method and apparatus for transmitting data in a wireless power transmission system with a power transmitter with a first light source and a second light source emitting light pulses of a substantially lower intensity than light pulses emitted by the first light source, the pulses being arranged to be transmitted substantially around the light emitted by the first light source and data bits being encoded in the pulses so as to determine a maximum time interval between two successive pulses, and a power receiver with a first photo-detector for receiving the emitted light and a second photo-detector for

indicating light pulses emitted by the second light source, means for determining data included in the light pulses and time between successive received light pulse, and transmitting means response to the determination arranged to transmit a control signal to the power transmitter in response to the time between successive received light pulses not exceeding the maximum time interval determined for two successive pulses, is not disclosed or made obvious by the previous art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

De Young et al. US Patent No. 5,260,639, Friedman et al. US Patent No. 6,407,535, and Berrios et al. US Patent No. 6,34,705, teach wireless power transmission systems using a light source.

Frosch et al. US Patent No. 4,187,506, teaches a wireless power transmission system with return pilot and data signals.
